

Year of the Rooster - The Economy Wakes Up

Tuesday, June 27, 2017
10 am - 11 am CT

About the Webinar

As the CMI has been suggesting for the last several months there has been a decided turn towards the optimistic in the economy as a whole. What is causing this? Is this anticipation of what is to come? Is it reaction to forces that started in 2016? Is this something we can count on for growth or will it fade in the harsh light of political and economic reality?

During this 60-minute webinar you will learn:

- How the Credit Managers' Index (CMI) saw this coming.
- What forces are pushing positively and which are pushing in a negative direction?
- What else can credit managers look at to understand what is coming at them?
